RICHARD HOLETON'S

FIGURSKI AT FINDHORN ON ACID

LAUNCH PARTY

Join us to celebrate the release of the archival version of Richard Holeton's zany hypertext novel, Figurski at Findhorn on Acid. Originally created on the Storyspace platform and published by Eastgate Systems, Inc. in 2001, the work has now been migrated to open web languages for access to general readers and scholars. The Launch Party features a performance by Holeton, a presentation by critic Mariusz Pisarski, and a discussion by members of the Electronic Literature Lab about the work's reconstruction.

FRIDAY JULY 9TH VIA ZOOM

10 - 11:30 AM PDT
